No.1 for Light Construction Equipment, Wheelbarrows, Scaffolding

www.ALTRAD-Belle.com

The **H2go Bag** can hold up to a maximum of **80 litres** of water, stays within the Wheelbarrow with the use of the **anti-slip mat** and is ideal for filling buckets, troughs and other containers or watering large trees and shrubs.

1. Fit anti-slide mat to Wheelbarrow and place H2go Bag in position.

2. Fill with water from a hose pipe.

3. Fit the cap and transport to required destination.
